

Immunogenicity of Biopharmaceuticals

Final ABIRISK Open meeting

9th EIP Open Scientific Symposium

LISBON 2017 - NOVEMBER 13th-16th

Organized under the flag of ABIRISK and the European Immunogenicity Platform (EIP), a central meeting place for European biopharmaceutical companies and scientific experts active in the field of immunogenicity

SYMPOSIUM OVERVIEW

In Autumn 2017, The European Immunogenicity Platform and the IMI-funded ABIRISK project are organising a joint meeting to cover the field of immunogenicity

Presentations by KOL's in the field from industry and academy and panel discussions will cover a wide range of topics including :

- novel tools for immunogenicity assessment
- clinical relevance of immunogenicity
- standardization of ADA and PK assays
- risk assessment of emerging complex biologics
- updates from the regulators (FDA, EMA)
- predictive biomarkers
- integrative analysis for statistical prediction of the risk

Organised in a high quality hotel in the city center, lunches and coffee breaks included, as well a social event on the second evening

Registration opens 15 June 2017 on the EIP website: www.e-i-p.eu

Venue : Altis Hotel Lisbon, Portugal

Dates : Monday November 13 - Thursday November 16 2017
